Work experience

Data Analyst – April 2019 – present
Maple Insights Inc.

Core responsibilities:

- Built and maintained dashboards in Power BI for executive reporting
- Automated ETL pipelines using Python and SQL
- Partnered with product teams to define KPIs

Notable project: redesigned the churn-prediction model, improving accuracy by 18%

Metric	Before	After
Accuracy	71%	89%
Runtime	4h	45m

Junior Data Analyst – August 2017 – March 2019
Maple Insights Inc.

Supported senior analysts with data cleaning and report generation.

Education

University of Toronto — Bachelor's degree – 2017
Faculty of Arts and Science, Statistics

Courses

- Data Analysis with Python — IBM (Coursera) , 2020
- Power BI Data Analyst Associate — Microsoft , 2022

About me

I'm a data analyst who enjoys turning messy datasets into clear stories.

What I bring:

- 6+ years of analytics experience
- Strong SQL and Python skills
- A habit of asking *why* before building any dashboard

~~Perfectionist~~ Detail-oriented, with a bias toward shipping.

1. Discover
2. Analyze
3. Visualize
4. Iterate

Hobbies

1. Chess
2. **Cycling**
3. Board game design

Recommendations
